

Admin Panel Features:

1. Product Management:
 - Ability to insert, delete, update, and edit products easily.
 - Products can be managed category-wise for efficient organization.
2. Category-wise Product Insertion:
 - Admin can insert products by category, streamlining the inventory process.
3. Discount Management:
 - Add and manage discounts on products.
 - Discounts can be applied to individual or multiple products and will be visible on the user side.
4. Order Management:
 - Manage order statuses with the following categories:
 - Pending
 - Dispatched
 - Cancelled
 - Returned
 - Received

This feature ensures a clear workflow for order fulfillment.

5. Sales Statistics:
 - View statistics on products to track performance:
 - High-selling products
 - Low-selling products
 - Products that are not in demand
 - This data will help make informed decisions regarding inventory and marketing strategies.

User Side Features:

1. Product Categorization:
 - Products will be displayed according to categories for better user experience and easy navigation.
2. Search Functionality:
 - A search bar that allows users to find products by name or category.
3. Discount Display:
 - Discounts on products will be prominently displayed, influencing the final payment amount at checkout.
4. Index Page:
 - A dynamic homepage displaying featured products, special offers, and categories.

5. Session Management:
 - User login/logout functionality to track individual sessions securely.
 - Users can create accounts, sign in, and manage their profiles and orders.
6. Social Media Integration:
 - Links to social media accounts (e.g., Facebook, Instagram) will be included for seamless connection with the brand's social presence.
7. About and Contact Us Pages:
 - Pages dedicated to providing users with information about the company and a way to contact customer support.
8. Add to cart functionality
 - User can add products in cart and buy in bulk or buy single product.
9. Payment Portal Integration:
 - Secure payment gateway integration for seamless transactions.
 - Multiple payment options (credit card, PayPal, etc.) can be implemented for user convenience.

Project Timeline & Milestones:

- This project takes around 2 months to complete.

Conclusion:

This website will provide an easy-to-use interface for both the admin team and customers, ensuring smooth management of products, orders, and payments.
