PYTHON DJANGO DEVELOPER

I am a skilled Python developer with experience in building scalable and efficient applications. I have worked on a variety of projects ranging from web development to machine learning, and I am always eager to learn new technologies and frameworks that will help me build better applications. I have experience in building RESTful APIs using popular Python web frameworks such as Django and Flask. I have also worked on projects involving face detection, image processing, and video filters.

SKILLS AND STRENGTHS

Django	DBMS, OOPs concepts	Aws, EC2, Nginx Deployment
Django-Rest-Framework	Firebase, Postgres, MongoDB,	Docker Basic
RestAPI, Jinja Template	MySQL, Sqlite, Version Control	Effective Communication,
Flask, Fast API, ORM, LLM	System, Git, GitHub , GitLab	Teamwork, Adaptive Learning

PROFESSIONAL EXPERIENCE

Logix Built Solutions PVT.LTD.

Sr. Software Engineer	Sep 2023 - Present
Software Engineer	Sep 2022 - Aug 2023
Software Engineer Intern	March 2022 - Aug 2022

- **Modernized and secured a Django application:** Upgraded to Django 4 and seamlessly integrated Google Single Sign-On (SSO) for enhanced user experience and security.
- **Developed a robust chatbot system:** Built a video content and document-based question-answering chatbot using LLM models. Implemented features like video-to-text conversion, content summarization, search functionality, and a scalable vector database for efficient storage and retrieval.
- **Implemented real-time sentiment analysis:** Built a web application using Flask to analyze interview candidate's facial expressions in real-time. Utilized MediaPipe JS and Firebase for data collection and visualization, providing valuable insights into emotional responses.
- **Enhanced an e-commerce platform:** Customized the Django admin panel to optimize product comparisons and price calculations, streamlining the workflow for product management.
- **Streamlined deployments:** Successfully leveraged Docker and AWS EC2 for automated and consistent deployments of Django and Flask projects on the cloud. This ensured efficient scaling, reduced infrastructure management overhead, and facilitated secure remote access.

EDUCATION & CERTIFICATIONS

Master of Computer Applications

DCS , Veer Narmad South Gujarat University, Surat
CGPA: 7.87

Bachelor of Computer Applications

Udhana citizen college of computer science
CGPA: 6.83
